

## **MBC Current Practices Relevant to Covid**

- Out of respect for others, if you feel sick or have recently had these symptoms: new or worsening cough, shortness of breath, fever, new loss of taste or smell or have been in contact with someone who is known to have COVID-19, please stay home until your symptoms resolve and seek advice of your health care provider.
- Masks are available for those who chose to wear one. Please feel free to bring one to use if you feel more comfortable.
- Attempts at social distancing have been made in the sanctuary and the Nehemiah Center is available for the second service to spread out as needed. Live streaming of the service will continue for those worshipping at home.
- Hand sanitizer is available.
- Additional cleaning provisions have been put in place.
